Tourist TAX

Information and Instructions

Perception from 1 March to 31 October

Why a tourist tax ?

Anyone who is temporarily staying in the area of Villedieu Intercom as resident of a hotel, campsite, a rated or not rated rental, a cottage (vacation home) or a guest house (bed and breakfast), **has to pay a tourist tax and an additional tax fixed by the department which amounts to 10% of the tourist tax and which is in addition to the rate set by Villedieu Intercom.**

This tax is collected by the accommodation owners and they give it to Villedieu Intercom. Then the tax is entirely given to the Tourism Office- Art crafts showcase – for the promotion of the territory.

As of 1 January 2016 the tax will be collected from every accommodation.

Good to know :

The tourist tax must appear apart from the rental price and must be on display in the accommodation.

How is it calculated ?

The tourist tax is calculated as follows:

Rate of the tax X number of people X number of nights

The following people do not have to pay the tax:

- Minors under 18 years,
- Seasonal employees of the municipality,
- People receiving emergency accommodation or temporary - shelter,
- People occupying a room whose rent is less than 5 euros per day.

How to pay the tourist tax:

1. You **fill in the mandatory reporting form** submitted at the beginning of the year.
(You can also receive it per email: directionot@villedieuintercom.fr or download it on the website www.villedieu-intercom.fr)
2. You **fill in the form and you send it** to the tourist Office between the 1st and the 15th of November

In case of an absence of classification an equivalence will be established for labeled housing, between the level of their label and stars on their classification (1 star corresponding to an ear, a key, a fireplace ...). This is the equivalence principle.

Get an accommodation classified: what for?

> **The owners of holiday rental (vacation homes, cottages, guest houses, bed and breakfast...)** have to declare their business to the council which they depend on (cerfa document n°140004*02. Tourism code, art-R324-1-1 and R324-1-2). With the star classification the owners grant a really advantageous taxation.

> **The classification through the prefectural services is not compulsory, but highly recommended.** This classification is in the quality approach preached by the Touris Office – art crafts showcase of Villedieu Intercom which wants to ensure and promote quality accommodation. **To classify an accommodation, you only have to call for an inspection by a licensed or accredited control/inspection organization** (information at the tourist office). Accommodations with a national official label, recognized by the Ministry of Tourism, are linked by prefectural or equivalent rank at the same level (for example: 1 corn ear or 1 key = 1 star)

What will the tourist tax be used for?

The proceeds of the tax are added to the budget that is used to promote tourism. Within Villedieu Intercom, the tax funds the promotion, the discovery and the development of touristic facilities in the area and the department.
